[National Autonomous University of Mexico Materials Research Institute Electron Microscopy University Laboratory Core Facility](#)

RRID:SCR_024400

Type: Tool

Proper Citation

National Autonomous University of Mexico Materials Research Institute Electron Microscopy University Laboratory Core Facility (RRID:SCR_024400)

Resource Information

URL: <https://www.iim.unam.mx/lablume/inicio.html>

Proper Citation: National Autonomous University of Mexico Materials Research Institute Electron Microscopy University Laboratory Core Facility (RRID:SCR_024400)

Description: Core covers main techniques of electron microscopy, from scanning electron microscopy to scanning transmission electron microscopy, for characterization of morphology and structure of materials at micrometer and nanometer scale. Provides equipment for preparing samples for analysis by different electron microscopy techniques.

Abbreviations: LUME

Synonyms: Universidad Nacional Autonoma de Mexico LUME, National Autonomous University of Mexico Materials Research Institute Electron Microscopy University Laboratory

Resource Type: access service resource, core facility, service resource

Keywords: USEDit, ABRF, electron microscopy, scanning electron microscopy, scanning transmission electron microscopy, materials characterization, materials morphology, materials structure, micrometer and nanometer scale

Resource Name: National Autonomous University of Mexico Materials Research Institute Electron Microscopy University Laboratory Core Facility

Resource ID: SCR_024400

Alternate IDs: ABRF_1826

Alternate URLs: <https://coremarketplace.org/?FacilityID=1826&citation=1>

Record Creation Time: 20230906T050226+0000

Record Last Update: 20260905T133438+0000

Ratings and Alerts

No rating or validation information has been found for National Autonomous University of Mexico Materials Research Institute Electron Microscopy University Laboratory Core Facility.

No alerts have been found for National Autonomous University of Mexico Materials Research Institute Electron Microscopy University Laboratory Core Facility.
