Corynebacterium glutamicum::RFP

RRID:Addgene_79642

Type: Plasmid

Proper Citation

RRID:Addgene_79642

Plasmid Information

URL: <http://www.addgene.org/79642>

Proper Citation: RRID:Addgene_79642

Insert Name: NA

Bacterial Resistance: Gentamicin

Defining Citation: [PMID:26829286](https://pubmed.ncbi.nlm.nih.gov/26829286/)

Vector Backbone Description: Vector Backbone:NA; Vector Types:; Bacterial Resistance:Gentamicin

Comments: If LacI is added to the cell (e.g., in a plasmid), the expression of RFP will be somewhat repressed (unless if IPTG is added), as there is a lacO between the promoter and the gene's ATG. Attempts to remove this lacO were unsuccessful - we suspect the higher RFP expression might lead to cell death (in the cloning strain, E. coli DH5alpha). Please note this strain has a higher %GC than E. coli, so PCRing (and sequencing) may be difficult.

Plasmid Name: Corynebacterium glutamicum::RFP

Record Creation Time: 20220422T222521+0000

Record Last Update: 20260912T093226+0000

Ratings and Alerts

No rating or validation information has been found for Corynebacterium glutamicum::RFP.

No alerts have been found for Corynebacterium glutamicum::RFP.
