Proper Citation: SEARCH for Diabetes in Youth (RRID:SCR_001540)

Description: National multi-center study aimed at understanding more about diabetes among children and young adults in the United States less than 20 years of age in six geographically dispersed populations that encompass the ethnic diversity of the United States. SEARCH has been helping to find answers about the types of diabetes, its complications, and how having diabetes affects the lives of children and young adults. There are more than 20,000 study participants representing all different racial and ethnic backgrounds who have helped SEARCH determine the extent of diabetes in the community and its impact on different populations. The SEARCH Study invites Investigators interested in childhood Diabetes Research to collaborate on matters of interest to the field of childhood Diabetes.

Abbreviations: SEARCH Study, SEARCH

Resource Type: research forum portal, resource, data or information resource, topical portal, disease-related portal, portal

Defining Citation: [PMID:15465616](#)

Keywords: child, early adult, multi-racial, complication, education, diagnosis, cost, blood, urine, bibliography, biomaterial supply resource

Related Condition: Diabetes

Funding: Centers for Disease Control and Prevention PA number 00097;
NIDDK Y1DK1326

Availability: Free, Freely available

Resource Name: SEARCH for Diabetes in Youth

Resource ID: SCR_001540

Alternate IDs: nlx_152850

Record Creation Time: 20220129T080208+0000

Record Last Update: 20260803T040309+0000
