Proper Citation: DOSY Toolbox (RRID:SCR_002409)

Description: Software toolbox for processing PFG NMR diffusion data that aims to incorporate many of the important processing schemes. It has a graphical user interface to make it easy to access a variety of different processing schemes (and a command mode for more advanced options). It is written in MATLAB, but can also be obtained as free standing compiled version that does not require a MATLAB installation. The MATLAB version runs on any platform, and the compiled version is presently available for Windows, Linux, and Mac.
