Coding Potential Calculator

RRID:SCR_002764

Type: Tool

Proper Citation

Coding Potential Calculator (RRID:SCR_002764)

Resource Information

URL: <http://cpc.cbi.pku.edu.cn/>

Proper Citation: Coding Potential Calculator (RRID:SCR_002764)

Description: A Support Vector Machine-based classifier to assesses the protein-coding potential of a transcript based on six biologically meaningful sequence features. CPC can discriminate coding from noncoding transcripts with high accuracy and speed. In addition to predicting the coding potential of the input transcripts, the CPC web server also graphically displays detailed sequence features and additional annotations of the transcript that may facilitate users' further investigation. The coding potential calculator tool reads FASTA data format as input.

Abbreviations: CPC

Resource Type: data analysis service, service resource, production service resource, software resource, analysis service resource

Defining Citation: [PMID:17631615](#)

Keywords: fasta, transcript, protein coding, coding potential, bio.tools

Availability: Free, Freely available

Resource Name: Coding Potential Calculator

Resource ID: SCR_002764

Alternate IDs: biotools:cpc, rid_000106

Alternate URLs: <https://bio.tools/cpc>

Record Creation Time: 20220129T080215+0000

Record Last Update: 20260801T190213+0000

Ratings and Alerts

No rating or validation information has been found for Coding Potential Calculator.

No alerts have been found for Coding Potential Calculator.

Data and Source Information
