Proper Citation: PPDB: Plant Promoter Database (RRID:SCR_003395)

Description: A plant promoter database that provides information on transcription start sites (TSSs), core promoter structure and regulatory element groups (REGs) as putative and comprehensive transcriptional regulatory elements. Microarray data-based predictions have been appended as REG annotations which inform their putative physiological roles.

Abbreviations: PPDB

Synonyms: Plant Promoter Database

Resource Type: data or information resource, database
