Proper Citation: ZENODO (RRID:SCR_004129)

Description: Repository for all research outputs from across all fields of science in any file format as well as both positive and negative results. They assign all publicly available uploads a Digital Object Identifier (DOI) to make the upload easily and uniquely citeable. They further support harvesting of all content via the OAI-PMH protocol. They promote peer-reviewed openly accessible research, and curate uploads. ZENODO allows users to create their own collection and accept or reject all uploads to it. They allow for uploading under a multitude of different licenses and access levels.

Abbreviations: ZENODO

Synonyms: Zenodo

Resource Type: data or information resource, catalog, data repository, storage service resource, database, service resource, software resource, software repository

Keywords: data set, software resource, video resource, audio track, image, poster, presentation, publication, digital preservation, digital archive, persistent identifier, digital object identifier, openaire orphan record repository

Funding: European Union FP7 OpenAIREplus 283595

Resource Name: ZENODO

Resource ID: SCR_004129
