Description: The Science Navigation Group is a group of independent companies that collaborate closely with each other to publish and develop information and services for the professional biomedical community and for the consumer market. Our products run the gamut from journals to websites, databases, maps and audiovisuals, and cater to clients as various as physicians, scientists, pharmaceutical companies, patients, students and the general public. We have created the UK's largest entertainment listings database, developed the leading mobile phone navigation software platform and publish one of the most respected biomedical literature awareness services. * Faculty of 1000 Ltd: F1000 - the online post-publication peer review service for biology and medicine * Current BioData Ltd: Publisher of evaluated information on target proteins that supports the development of safe and effective new medicines * Global DataPoint Ltd: Global DataPoint - International data services for mobile, new media, press and publishing * Wozzon Ltd: Dedicated web service of information on all types of events taking place in the UK and internationally * Web of Stories Ltd: The Web of Stories site is where you can record your own stories and watch stories that others have recorded. The Group has its head office in London (UK), with additional offices in New York, New Jersey, Geneva, Amsterdam and Tel Aviv.
