PRED-TMR

RRID:SCR_006203

Type: Tool

Proper Citation

PRED-TMR (RRID:SCR_006203)

Resource Information

URL: <http://athina.biol.uoa.gr/PRED-TMR/>

Proper Citation: PRED-TMR (RRID:SCR_006203)

Description: A web server that predicts transmembrane domains in proteins using solely information contained in the sequence itself. The algorithm refines a standard hydrophobicity analysis with a detection of potential termini (edges, starts and ends) of transmembrane regions. This allows both to discard highly hydrophobic regions not delimited by clear start and end configurations and to confirm putative transmembrane segments not distinguishable by their hydrophobic composition. The accuracy obtained on a test set of 101 non homologous transmembranes proteins with reliable topologies compares well with that of other popular existing methods. Only a slight decrease in prediction accuracy was observed when the algorithm was applied to all transmembrane proteins of the SwissProt database (release 35).

Abbreviations: PRED-TMR

Synonyms: PRED-TMR: A novel method for predicting transmembrane segment in proteins based on a statistical analysis of the SwissProt database

Resource Type: data analysis service, service resource, production service resource, analysis service resource

Defining Citation: [PMID:10360978](#)

Keywords: predict, transmembrane segment, protein, algorithm, sequence, membrane protein, protein structure, transmembrane region, hydrophobicity analysis

Funding: European Union ERBFMRXCT960019

Resource Name: PRED-TMR

Resource ID: SCR_006203

Alternate IDs: nlx_151765

Record Creation Time: 20220129T080234+0000

Record Last Update: 20260801T042621+0000

Ratings and Alerts

No rating or validation information has been found for PRED-TMR.

No alerts have been found for PRED-TMR.
