Resource Information

URL: <http://clinicaltrials.gov/ct2/show/NCT00688662>

Proper Citation: Evaluating Predictors and Interventions in Sphincter of Oddi Dysfunction
(RRID:SCR_006897)

Description: A prospective, double-blind, randomized, sham-controlled, multi-center clinical trial that enrolls subjects who have received a prior cholecystectomy and are diagnosed with the clinical syndrome of Sphincter of Oddi Dysfunction III (SOD III) as defined by the Rome III criteria. The goal of the study is to assess the value of endoscopic sphincterotomy as a treatment for adult subjects categorized as SOD III suffering from pain after cholecystectomy and to define the role of manometry in treating these patients.

Abbreviations: EPISOD

Synonyms: Evaluating Predictors & Interventions in Sphincter of Oddi Dysfunction, Evaluating Predictors & Interventions in Sphincter of Oddi Dysfunction (EPISOD)

Resource Type: resource, clinical trial

Keywords: clinical, treatment, intervention, sphincterotomy, pancreatic, pancreas, pancreatitis, biliary, adult human, male, female, manometry

Related Condition: Cholecystectomy, Sphincter of Oddi Dysfunction

Funding: NIDDK

Resource Name: Evaluating Predictors and Interventions in Sphincter of Oddi Dysfunction

Resource ID: SCR_006897

Alternate IDs: nlx_152824
