Proper Citation: American Heart Association (RRID:SCR_007210)

Description: The American Heart Association (AHA) publishes medical scientific statements on various cardiovascular disease and stroke topics. AHA volunteer scientists and healthcare professionals write the papers. The statements are supported by scientific studies published in recognized journals and have a rigorous review and approval process. Scientific statements generally include a review of data available on a specific subject, an evaluation on its relationship to overall cardiovascular disease science, and often an American Heart Association position on the basis of that evaluation. The American Heart Association sponsors accredited scientific conferences and professional development seminars to disseminate new and emerging scientific knowledge and stimulate discussion on future research and the application of knowledge. Keywords: Heart, Cardiovascular, Disease, Stroke, Volunteer, Scientist, Healthcare, Development, Knowledge,

Synonyms: AHA

Resource Type: portal, topical portal, research forum portal, disease-related portal, data or information resource

Resource Name: American Heart Association

Resource ID: SCR_007210

Alternate IDs: nif-0000-30095

Record Creation Time: 20220129T080240+0000

Record Last Update: 20260805T044148+0000

Ratings and Alerts

No rating or validation information has been found for American Heart Association.

No alerts have been found for American Heart Association.
