Proper Citation: NIA Nonhuman Primate Tissue Bank (RRID:SCR_007324)

Description: A repository of tissue collected from nonhuman primate (NHP) species under contractual arrangement with Wisconsin National Primate Research Center (WI NPRC). NIA's Nonhuman Primate Tissue Bank collects and archives tissue from necropsies performed at primate centers nationwide. The goal is to collect various tissues from aged monkeys with smaller amounts of the same tissues from young and middle-aged monkeys. Tissue will be provided as: (1) fresh frozen, stored at -80 degrees Celsius; (2) formalin fixed; or (3) fresh frozen tissue in OCT medium. Most frozen tissues are provided in approximately 1 gram of tissue per vial. Fixed tissue is available as slides (sections) from paraffin-embedded blocks. Slides can be stained if requested. Tissue from NIA's Nonhuman Primate Tissue Bank is available to investigators at academic and nonprofit research institutions who are engaged in funded research on aging. The project name and funding source must accompany all orders. The NIA will not be able to ship non-human primate tissue outside of the United States or US territories. Investigators at for-profit entities are not eligible to purchase tissue from NIA's Nonhuman Primate Tissue Bank unless it is for a Small Business Innovation Research grant from NIA. NIA provides the health information as given by the donor site and cannot guarantee other aspects of the health status not explicitly stated in the Vital Statistics Information Sheet. Concerns about the specific health status of donor animals should be indicated on the order form.

Abbreviations: NHP Tissue Bank

Synonyms: Non-human Primate Tissue Bank, Nonhuman Primate Tissue Bank Handbook, Aged Nonhuman Primate Tissue Bank, Nonhuman Primate Tissue Bank, NIA Non-Human Primate Tissue Banks, NIA Non-human Primate Tissue Bank

Resource Type: biomaterial supply resource, material resource, tissue bank

Keywords: tissue, fresh frozen, fixed block, slide, oct, frozen, fixed, paraffin-embedded block, stained, middle adult, aged, late adult, young, non-human primate, rhesus monkey

Related Condition: Aged, Middle adult, Late adult, Young, Aging

Funding: NIA ;
NIH Blueprint for Neuroscience Research

Availability: Public (US): available to investigators at academic and nonprofit research institutions engaged in funded research on aging. Investigators at for-profit entities are not eligible unless it is for a Small Business Innovation Research grant from NIA.
