Proper Citation: Kawasaki Disease Dataset2 (RRID:SCR_008839)

Description: Dataset from an investigation of biochemical evidence of myocardial strain, oxidative stress, and cardiomyocyte injury in 55 acute KD subjects (30 with paired convalescent samples), 54 febrile control (FC), and 50 healthy control (HC) children by measuring concentrations of cardiovascular biomarkers. NT-proBNP and sST2 were elevated in acute KD subjects and correlated with impaired myocardial relaxation. These findings, combined with elevated levels of cTnI, suggest that both cardiomyocyte stress and cell death are associated with myocardial inflammation in acute KD.

Abbreviations: KD Data

Resource Type: data set, data or information resource

Defining Citation: [PMID:21777987](#)

Keywords: kawasaki disease, nt-probnp, sst2, copeptin, ct-proet-1, mr-proadm, mr-proanp, pct, troponin i cardiac muscle, cardiovascular biomarker, cardiovascular, biomarker, child, acute, convalescent, febrile, cttni, myocardial inflammation, pediatric

Related Condition: Kawasaki disease, Normal

Resource Name: Kawasaki Disease Dataset2

Resource ID: SCR_008839

Alternate IDs: nlx_144644

Old URLs:
