Proper Citation: UPR AABRE Program: Human Genetics Center (RRID:SCR_010116)

Description: Core facility that provides the following services: Genotyping analysis service, Microarray service. The lab has the following general goals: 1. To strengthen the scientific interactions between basic scientists and clinicians from the MSC and to enhance collaborations with international scientists working in molecular biology, human genetics, and infectious diseases; 2. To provide training, education, and support for the development of young scientists as well as established basic and clinical researchers with participation of internationally recognized leaders in the field; 3. To establish a centralized DNA, plasma and cell banking facility for storage of clinical samples from human blood or skin biopsies; 4. To provide basic services in molecular biology and human genetics; and 5. To initiate webcasting of training sessions in specialized areas in collaboration with the Center for Information Architecture in Research.

Resource Type: core facility, service resource, access service resource

Keywords: genotyping assay, nucleic acid microarray assay

Resource Name: UPR AABRE Program: Human Genetics Center

Resource ID: SCR_010116

Alternate IDs: nlx_156589

Record Creation Time: 20220129T080256+0000

Record Last Update: 20260801T191200+0000

Ratings and Alerts

No rating or validation information has been found for UPR AABRE Program: Human Genetics Center.

No alerts have been found for UPR AABRE Program: Human Genetics Center.
