Dispedia Core Ontology

RRID:SCR_010309

Type: Tool

Proper Citation

Dispedia Core Ontology (RRID:SCR_010309)

Resource Information

URL: <http://purl.bioontology.org/ontology/DCO>

Proper Citation: Dispedia Core Ontology (RRID:SCR_010309)

Description: Ontology that is a schema for information brokering and knowledge management in the complex field of rare diseases. On the one hand, the Dispedia schema uses semantic technologies to describe patients affected by rare diseases, and on the other hand, to record expertise concerning these particular diseases in machine-processable form. In addition to the differentiated attribution of facts to the individual need for information, Dispedia enables information brokering which adjusts to the type of recipient, its character as well as its personal attitude. The schema was initially geared to an exemplified disease, Amyotrophe Lateralsclerose (ALS).

Abbreviations: DCO

Resource Type: ontology, controlled vocabulary, data or information resource

Keywords: owl

Related Condition: Rare disease, Amyotrophic lateral sclerosis

Resource Name: Dispedia Core Ontology

Resource ID: SCR_010309

Alternate IDs: nlx_157389

Record Creation Time: 20220129T080257+0000

Record Last Update: 20260801T042705+0000
