Human Developmental Anatomy Ontology abstract version 1

RRID:SCR_010323

Type: Tool

Proper Citation

Human Developmental Anatomy Ontology abstract version 1 (RRID:SCR_010323)

Resource Information

URL: <http://purl.bioontology.org/ontology/EHDAA>

Proper Citation: Human Developmental Anatomy Ontology abstract version 1 (RRID:SCR_010323)

Description: A structured controlled vocabulary of stage-specific anatomical structures of the human. It has been designed to mesh with the mouse anatomy and incorporates each Carnegie stage of development (CS1-20). The abstract version of the human developmental anatomy ontology compresses all the tissues present over Carnegie stages 1-20 into a single hierarchy. The heart, for example, is present from Carnegie Stage 9 onwards and is thus represented by 12 EHDA IDs (one for each stage). In the abstract mouse, it has a single ID so that the abstract term given as just "heart" really means "heart (CS 9-20)". Timing details will be added to the abstract version of the ontology in a future release.

Abbreviations: EHDAA

Resource Type: ontology, controlled vocabulary, data or information resource

Keywords: obo

Resource Name: Human Developmental Anatomy Ontology abstract version 1

Resource ID: SCR_010323

Alternate IDs: nlx_157429

Record Creation Time: 20220129T080258+0000

Record Last Update: 20260801T190412+0000

Ratings and Alerts

No rating or validation information has been found for Human Developmental Anatomy Ontology abstract version 1.

No alerts have been found for Human Developmental Anatomy Ontology abstract version 1.
