Genomic Clinical Decision Support Ontology

RRID:SCR_010331

Type: Tool

Proper Citation

Genomic Clinical Decision Support Ontology (RRID:SCR_010331)

Resource Information

URL: <http://purl.bioontology.org/ontology/GENE-CDS>

Proper Citation: Genomic Clinical Decision Support Ontology (RRID:SCR_010331)

Description: Ontology to unify several functionalities in a single resource, being: * A knowledge base for clinical pharmacogenomics/pharmacogenetics that can be used for question-answering (e.g., which SNPs are associated with this drug?) * A rule base for clinical decision support (e.g., inferring that a patient with a specific set of SNPs requires a lowered dose of warfarin and generating a CDS message that can be viewed by clinicians) * A tool for checking data consistency (e.g., highlighting which allele definitions in PharmGKB are overlapping, or which clinical decision support rules are matching the same group of patients)

Abbreviations: GENE-CDS

Synonyms: Genomic CDS ontology

Resource Type: controlled vocabulary, data or information resource, ontology

Keywords: owl

Resource Name: Genomic Clinical Decision Support Ontology

Resource ID: SCR_010331

Alternate IDs: nlx_157419

Record Creation Time: 20220129T080258+0000

Record Last Update: 20260729T044247+0000

Ratings and Alerts

No rating or validation information has been found for Genomic Clinical Decision Support Ontology.

No alerts have been found for Genomic Clinical Decision Support Ontology.
