BioSpace

RRID:SCR_012010

Type: Tool

Proper Citation

BioSpace (RRID:SCR_012010)

Resource Information

URL: <http://www.biospace.com/>

Proper Citation: BioSpace (RRID:SCR_012010)

Description: Online community for industry news and careers for life science professionals.

Abbreviations: BioSpace

Resource Type: data or information resource, job resource, narrative resource

Keywords: biotechnology, pharmaceutical, career, clinical, academic, biomedical, medical device

Availability: The community can contribute to this resource

Resource Name: BioSpace

Resource ID: SCR_012010

Alternate IDs: OMICS_01828

Record Creation Time: 20220129T080308+0000

Record Last Update: 20260903T235143+0000

Ratings and Alerts

No rating or validation information has been found for BioSpace.

No alerts have been found for BioSpace.

Data and Source Information

Usage and Citation Metrics

We found 510 mentions in open access literature.

Listed below are recent publications. The full list is available at [T1D](#) .

Ylinen V, et al. (2026) Skeletal muscle phenotype and blood pressure after acute exercises. *European journal of applied physiology*, 126(4), 2063.

Kahi M, et al. (2026) Hypusination of the translation factor eIF5A regulates mitochondrial tRNA processing to promote prostate cancer aggressiveness. *Nature communications*, 17(1).

Ferreira L, et al. (2026) Exploring the relationship between reproductive aging, arterial stiffness, and cardiorespiratory fitness in women after menopause. *Physiological reports*, 14(7), e70722.

Nam JS, et al. (2026) Efficacy and safety of Korean red ginseng as adjunctive therapy in type 2 diabetes mellitus: a 12-week randomized, double-blind, placebo-controlled trial. *Journal of ginseng research*, 50(4), 101068.

Song J, et al. (2026) Human multi-tissue transcriptomics identifies galectin-1 and follistatin-like 1 as exerkinases with distinct transcript-to-serum coupling after exercise. *The Journal of physiology*, 604(12), 4815.

Kim YS, et al. (2026) Role of Fat-Free Mass-Adjusted Cardiorespiratory Fitness in Predicting Hospitalization Risk in Patients with Heart Failure. *Yonsei medical journal*, 67(6), 449.

Liu Y, et al. (2025) Association between bone mineral density T-score and respiratory sarcopenia in older adults. *Frontiers in medicine*, 12, 1534208.

Kim YS, et al. (2025) Low phase angle indicates poor muscle strength and physical performance in patients with knee osteoarthritis awaiting total knee arthroplasty. *Scientific reports*, 15(1), 27511.

Nes BM, et al. (2025) Effects of 1-year exercise in patients with atrial fibrillation: study protocol for the Norwegian Exercise in Atrial Fibrillation (NEXAF) randomised controlled trial. *Open heart*, 12(1).

Tong B, et al. (2025) Relationship of total and regional lean body mass with knee pain and function in patients with knee osteoarthritis: a cross-sectional study. *BMC musculoskeletal disorders*, 26(1), 859.

Li H, et al. (2025) Occurrence of sarcopenia in elderly patients with coronary heart disease and its association with short-term prognosis. *BMC cardiovascular disorders*, 25(1), 28.

Mannini A, et al. (2025) Ganglioside GD2 Contributes to a Stem-Like Phenotype in Intrahepatic Cholangiocarcinoma. *Liver international : official journal of the International*

Association for the Study of the Liver, 45(1), e16208.

Zhu X, et al. (2025) Study on body composition characteristics and influencing factors of sarcopenia status among older adults in Shanghai: a cross-sectional study. *Journal of health, population, and nutrition*, 44(1), 356.

Abdullah H, et al. (2025) High-Resolution prediction of soil pH in European temperate forests using Sentinel-2 and ancillary environmental data. *Scientific reports*, 15(1), 28509.

Chen CH, et al. (2025) The effect of intensive resistance exercise and excessive fructose intake on metabolic and physiological responses. *Nutrition & metabolism*, 22(1), 50.

Wang K, et al. (2025) Microalgae-based biodegradable embolic agent for the treatment of hepatocellular carcinoma through transarterial embolization. *Journal of nanobiotechnology*, 23(1), 234.

Sjúrðarson T, et al. (2025) Investigating the combined effects of statins and exercise on skeletal muscle mitochondrial content and function, cardiorespiratory fitness and quality of life in individuals with dyslipidaemia: protocol for a randomised placebo-controlled trial. *BMJ open*, 15(6), e101425.

Tanel M, et al. (2025) Reticulospinal and corticospinal responses in long-term strength-trained and untrained adults. *European journal of applied physiology*, 125(11), 3283.

Yoon D, et al. (2025) Low-molecular-weight whey protein hydrolysate and ginseng berry extract enhance muscle strength and physical performance in Korean older adults: a randomized controlled trial. *Nutrition research and practice*, 19(3), 412.

Wang Y, et al. (2025) Protocol for iterative in vivo selection of highly metastatic ovarian cancer cell populations and metastasis modeling in mice. *STAR protocols*, 6(4), 104095.
