Proper Citation: United States Department of Energy (RRID:SCR_012841)

Description: The mission of the Department of Energy is to ensure America's security and prosperity by addressing its energy, environmental, and nuclear challenges through transformative science and technology solutions. Goal 1: Transform our Energy Systems - Catalyze the timely, material, and efficient transformation of the nation's energy system and secure U.S. leadership in clean energy technologies. Goal 2: The Science and Engineering Enterprise - Maintain a vibrant U.S. effort in science and engineering as a cornerstone of our economic prosperity, with clear leadership in strategic areas. Goal 3: Secure Our Nation - Enhance nuclear security through defense, nonproliferation, and environmental efforts. Goal 4: Management and Operational Excellence - Establish an operational and adaptable framework that combines the best wisdom of all Department stakeholders to maximize mission success.
