Proper Citation: HTPSELEX (RRID:SCR_013164)

Description: The HTPSELEX database contains sets of in vitro selected transcription factor binding site sequences obtained via a high-throughput SELEX (HTPSELEX) method. In addition, the database also contains binding sites obtained with conventional SELEX method. The database hosts 12 individual Selex libraries for the transcription factors CTF/NF1 and LEF/TCF families totaling more than 40,000 sites. In addition we also have manually curated SELEX datasets from the literature for 25 different transcription factors.

Synonyms: HTPSELEX

Resource Type: data or information resource, database

Keywords: selex, transcription, transcription factor

Resource Name: HTPSELEX

Resource ID: SCR_013164

Alternate IDs: nif-0000-02989

Record Creation Time: 20220129T080314+0000

Record Last Update: 20260729T044311+0000
