GWASELECT

RRID:SCR_013303

Type: Tool

Proper Citation

GWASELECT (RRID:SCR_013303)

Resource Information

URL: <http://dlin.web.unc.edu/software/gwaselect-2/>

Proper Citation: GWASELECT (RRID:SCR_013303)

Description: Software application that implements a novel variable selection method for GWAS data and is able to handle more than half million SNPs. Extensive simulation studies and real data analysis show that this method enjoys high power and low false discovery rate compared to existing variable selection methods. The variables selected by GWASelect can be readily placed into a logistic regression model for disease prediction. The current release is designed for binary outcome under the additive mode of inheritance. (entry from Genetic Analysis Software)

Abbreviations: GWASELECT

Resource Type: software application, software resource

Keywords: gene, genetic, genomic

Resource Name: GWASELECT

Resource ID: SCR_013303

Alternate IDs: nlx_154370

Record Creation Time: 20220129T080315+0000

Record Last Update: 20260805T044311+0000

Ratings and Alerts

No rating or validation information has been found for GWASELECT.
