Proper Citation: PALM (RRID:SCR_017029)

Description: Software tool for inference using permutation methods. Requires Matlab or Octave. Can be executed from inside either environment, or directly from the shell and can be called from scripts. For users who are familiar with statistics and willing to use experimental analysis tools.

Abbreviations: PALM

Synonyms: PALM, Permutation Analysis of Linear Models

Resource Type: data processing software, data analysis software, software application, software resource

Defining Citation: [PMID:24530839](#), [PMID:26074200](#), [DOI:10.1002/hbm.23115](#), [PMID:27288322](#)

Keywords: statistics, permutation, bootstrap, non parametric, combination, inference
