Proper Citation: Steve and Cindy Rasmussen Institute for Genomic Medicine Clinical Laboratory Core Facility at Nationwide Children's Hospital (RRID:SCR_017840)

Description: Core performs and analyzes integrated clinical genomic, molecular, microarray, FISH, and cytogenetic analyses to diagnose broad range of inherited diseases and cancer. Serves as centralized clinical testing laboratory for Children Oncology Group leukemia, Wilms tumor, medulloblastoma, and rhabdomyosarcoma studies. Emphasizes collaborative interactions between clinicians, physician-scientists, and basic science investigators to quickly transition cutting edge research results into cutting edge diagnostics, using technology platforms. Services include Whole Exome Sequencing (WES), cytogenetic chromosome analysis, Fluorescence in situ Hybridization, Chromosomal microarray analysis, Molecular Genetic Testing - Inherited Diseases, Molecular Genetic Testing - Cancer.

Abbreviations: IGM

Synonyms: Institute for Genomic Medicine Clinical Laboratory

Resource Type: core facility, service resource, access service resource

Keywords: Clinical, genomic, molecular, microarray, FISH, cytogenetic, inherited, disease, cancer, testing, children, oncology, leukemia, medulloblastoma, rhabdomyosarcoma, diagnosis, whole, exome, sequencing, chromosomal, microarray, analysis, molecular, genetic, service, core, ABRF

Availability: Restricted

Resource Name: Steve and Cindy Rasmussen Institute for Genomic Medicine Clinical Laboratory Core Facility at Nationwide Children's Hospital

Resource ID: SCR_017840

Alternate IDs: ABRF_631

Record Creation Time: 20220129T080337+0000

Record Last Update: 20260801T191241+0000

Ratings and Alerts

No rating or validation information has been found for Steve and Cindy Rasmussen Institute for Genomic Medicine Clinical Laboratory Core Facility at Nationwide Children's Hospital.

No alerts have been found for Steve and Cindy Rasmussen Institute for Genomic Medicine Clinical Laboratory Core Facility at Nationwide Children's Hospital.
