Proper Citation: ActiView (RRID:SCR_023671)

Description: Software tool written in LabVIEW is acquisition program for BioSemi ActiveTwo system. Designed to display all ActiveTwo channels on screen and save all data to network disk in .BDF format. Basic acquisition program can be expanded with modules on client specification. Used for acquisition of EEG/ECG/EMG signals, as well as for data coming from additional sensors such as AnalogInputBox (AIB), digital triggers from USB2 receiver and extra sensors connected to AD-box. Several reference selections, filtering and downsampling options are provided.

Resource Type: data acquisition software, software resource, software application, data processing software

Keywords: BioSemi, ActiveTwo system, signal acquisition, EEG, ECG, EMG

Availability: Free, Available for download, Freely available

Resource Name: ActiView

Resource ID: SCR_023671

Alternate URLs: https://www.biosemi.com/download_actiview.htm

Record Creation Time: 20230609T050221+0000

Record Last Update: 20260808T190257+0000

Ratings and Alerts

No rating or validation information has been found for ActiView.
