Proper Citation: Noldus: Erasmus Ladder (RRID:SCR_024695)

Description: System consists of hardware and software for assessment of motor performance and motor learning in mice. Hardware includes two goal boxes with horizontal ladder in between. Touch sensitive rungs of the ladder make it possible to measure step durations and step types. ErasmusLadder software controls experiments by sending protocol and start command to apparatus. Sessions are performed automatically, and afterwards, data is sent back to software for storage and analysis.

Synonyms: Erasmus Ladder

Resource Type: instrument resource

Keywords: Noldus, motor performance and motor learning in mice assessment,

Availability: Restricted

Resource Name: Noldus: Erasmus Ladder
