Proper Citation: Thermo Fisher: Vanquish Horizon UHPLC System (RRID:SCR_025713)

Description: System for applications requiring high-quality Ultra High Performance Liquid Chromatography. Uses high pressure to separate and identify components of mixture. Provides accurate separation, retention times, peak area, detector sensitivity and reduced baseline noise for high flow rates.

Synonyms: Vanquish Horizon UHPLC system

Resource Type: instrument resource

Keywords: Ultra High Performance Liquid Chromatography, high pressure to separate and identify components of mixture,
