Southwestern NMR Center for In Vivo Metabolism

RRID:SCR_001429

Type: Tool

Proper Citation

Southwestern NMR Center for In Vivo Metabolism (RRID:SCR_001429)

Resource Information

URL: <http://www.utsouthwestern.edu/education/medical-school/departments/airc/southwestern-nmr-center/index.html>

Proper Citation: Southwestern NMR Center for In Vivo Metabolism (RRID:SCR_001429)

Description: Biomedical technology research center that develops and applies new methods for analysis of metabolic networks in intact tissues, animals and human patients. The importance of understanding abnormal metabolism in common diseases such as cancer, diabetes and heart disease has long been appreciated. Because of constraints in technology, however, much of this research has been conducted in isolated systems where clinical relevance may be uncertain. Progress in magnetic resonance technology provides a foundation for major advances towards new ways of imaging metabolism in patients. These new techniques offer the advantage of imaging biochemical pathways without radiation. The focus of this Resource is to bring these technologies to a level where clinical research is feasible through the development of new MR contrast agents, NMR spectroscopy at high fields, and imaging of hyperpolarized ^{13}C .

Abbreviations: Southwestern NMR Center

Synonyms: Southwestern NMR Center for in vivo Metabolism - NIBIB

Resource Type: biomedical technology research center, training resource

Keywords: metabolic network, tissue, imaging, metabolism, nuclear magnetic resonance, magnetic resonance, nuclear magnetic resonance spectroscopy

Related Condition: Cancer, Diabetes, Heart disease

Funding: NIBIB 5P41EB015908-28

Availability: Free, Freely Available

Resource Name: Southwestern NMR Center for In Vivo Metabolism

Resource ID: SCR_001429

Alternate IDs: nlx_152653

Record Creation Time: 20220129T080207+0000

Record Last Update: 20260808T190545+0000

Ratings and Alerts

No rating or validation information has been found for Southwestern NMR Center for In Vivo Metabolism.

No alerts have been found for Southwestern NMR Center for In Vivo Metabolism.
