Proper Citation: Midas Platform (RRID:SCR_002186)

Description: Open-source toolkit that enables the rapid creation of tailored, web-enabled data storage and provides a cohesive system for data management, visualization, and processing. At its core, Midas Platform is implemented as a PHP modular framework with a backend database (PostgreSQL, MySQL and non-relational databases). While the Midas Platform system can be installed and deployed without any customization, the framework has been designed with customization in mind. As building one system to fit all is not optimal, the framework has been extended to support plugins and layouts. Through integration with a range of other open-source toolkits, applications, or internal proprietary workflows, Midas Platform offers a solid foundation to meet the needs of data-centric computing. Midas Platform provides a variety of data access methods, including web, file system and DICOM server interfaces, and facilitates extending the methods in which data is stored to other relational and non-relational databases.

Abbreviations: Midas

Synonyms: Midas Platform - The Multimedia Digital Archiving System

Resource Type: data management software, software application, software resource, software toolkit

Defining Citation: [PMID:18560078](#)

Keywords: data storage, data analysis, visualization, multimedia, digital archiving, processing

Funding: NLM ;
NIH ;
NCI

Availability: Apache License, v2, Simplified BSD License, BSD License

Resource Name: Midas Platform

Resource ID: SCR_002186

Alternate IDs: nlx_154696

Record Creation Time: 20220129T080212+0000

Record Last Update: 20260904T000416+0000

Ratings and Alerts

No rating or validation information has been found for Midas Platform.

No alerts have been found for Midas Platform.
