SeqGSEA

RRID:SCR_005724

Type: Tool

Proper Citation

SeqGSEA (RRID:SCR_005724)

Resource Information

URL: <http://bioconductor.org/packages/devel/bioc/html/SeqGSEA.html>

Proper Citation: SeqGSEA (RRID:SCR_005724)

Description: Software package that provides methods for gene set enrichment analysis of high-throughput RNA-Seq data by integrating differential expression and splicing. It uses negative binomial distribution to model read count data, which accounts for sequencing biases and biological variation. Based on permutation tests, statistical significance can also be achieved regarding each gene's differential expression and splicing, respectively.

Abbreviations: SeqGSEA

Synonyms: SeqGSEA - Gene Set Enrichment Analysis (GSEA) of RNA-Seq Data: integrating differential expression and splicing

Resource Type: data analysis software, data processing software, software application, software resource

Keywords: differential expression, gene expression, gene set enrichment, rna-seq, sequencing, splicing

Availability: GNU General Public License, v3 or newer

Resource Name: SeqGSEA

Resource ID: SCR_005724

Alternate IDs: OMICS_02251

Record Creation Time: 20220129T080232+0000

Record Last Update: 20260919T195058+0000

Ratings and Alerts

No rating or validation information has been found for SeqGSEA.

No alerts have been found for SeqGSEA.

Data and Source Information
