ArtRepair for robust fMRI

RRID:SCR_005990

Type: Tool

Proper Citation

ArtRepair for robust fMRI (RRID:SCR_005990)

Resource Information

URL: <http://cibsr.stanford.edu/tools/human-brain-project/artrepair-software.html>

Proper Citation: ArtRepair for robust fMRI (RRID:SCR_005990)

Description: A toolbox for SPM to improve fMRI analysis of high motion pediatric and clinical subjects. The toolbox includes special algorithms for motion adjustment, data repair, and noise filtering, and methods to find outlier subjects in group studies. Visualization tools are included for quality checking the data, including a movie format for viewing all data and all contrast estimates on every voxel of every subject. Methods are included to quantify results into percent signal change. * Operating System: OS Independent * Programming Language: MATLAB * Supported Data Format: ANALYZE, NIfTI-1 * execution requires: SPM

Abbreviations: ArtRepair

Synonyms: Art Repair, ArtRepair Software

Resource Type: data processing software, data visualization software, image analysis software, software application, software resource, software toolkit

Keywords: algorithm or reusable library, artifact removal, quality metrics, motion analysis, image display, fmri, motion adjustment, data repair, noise filtering, high motion, pediatric, spm, matlab, clinical. pediatric, child

Availability: Acknowledgement required, Non-commercial

Resource Name: ArtRepair for robust fMRI

Resource ID: SCR_005990

Alternate IDs: nlx_151367

Alternate URLs: http://www.nitrc.org/projects/art_repair

Record Creation Time: 20220129T080233+0000

Record Last Update: 20260903T235745+0000

Ratings and Alerts

No rating or validation information has been found for ArtRepair for robust fMRI.

No alerts have been found for ArtRepair for robust fMRI.
