## NHMRC Australian PhenomeBank

RRID:SCR\_006149

Type: Tool

### Proper Citation

NHMRC Australian PhenomeBank (RRID:SCR\_006149)

### Resource Information

**URL:** <https://pb.apf.edu.au/phenbank/homePage.html>

**Proper Citation:** NHMRC Australian PhenomeBank (RRID:SCR\_006149)

**Description:** The NHMRC Australian PhenomeBank (APB) is a non-profit repository of mouse strains used in Medical Research. The database allows you to search for murine strains, housed or archived in Australia, carrying mutations in particular genes, strains with transgenic alterations and for mice with particular phenotypes. 1876 publicly available strains, 922 genes, 439 transgenes The APB has two roles: Provide and maintain a central database of genetically modified mice held in Australia either live or as cryopreserved material; Establish and maintain a mouse strain archive. Strains are archived as cryopreserved sperm or embryos.

**Abbreviations:** APB

**Synonyms:** Australian Phenome Bank, Phenome Bank, Australian PhenomeBank, NHMRC Australian Phenome Bank, PhenomeBank

**Resource Type:** cell repository, organism supplier, biomaterial supply resource, material resource

**Keywords:** RIN, Resource Information Network, murine, mutation, gene, strain, transgenic, alteration, phenotype, live mouse, sperm, embryo, transgene, database, allele, chromosome, RRID Community Authority

**Availability:** Public

**Resource Name:** NHMRC Australian PhenomeBank

**Resource ID:** SCR\_006149

**Alternate IDs:** nlx\_151640

**Old URLs:**
