Global Proteome Machine Database (GPM DB)

RRID:SCR_006617

Type: Tool

Proper Citation

Global Proteome Machine Database (GPM DB) (RRID:SCR_006617)

Resource Information

URL: <http://www.thegpm.org/>

Proper Citation: Global Proteome Machine Database (GPM DB) (RRID:SCR_006617)

Description: The Global Proteome Machine Organization was set up so that scientists involved in proteomics using tandem mass spectrometry could use that data to analyze proteomes. The projects supported by the GPMO have been selected to improve the quality of analysis, make the results portable and to provide a common platform for testing and validating proteomics results. The Global Proteome Machine Database was constructed to utilize the information obtained by GPM servers to aid in the difficult process of validating peptide MS/MS spectra as well as protein coverage patterns. This database has been integrated into GPM server pages, allowing users to quickly compare their experimental results with the best results that have been previously observed by other scientists.

Abbreviations: The GPM

Synonyms: GPM, The Global Proteome Machine Organization: Proteomics Database and Open Source Software, Global Proteome Machine Database, GPM DB, The Global Proteome Machine Database, The Global Proteome Machine, Global Proteome Machine Database (GPM DB), The Global Proteome Machine Organization

Resource Type: data analysis software, data or information resource, data processing software, data repository, database, service resource, software application, software resource, storage service resource

Keywords: mass spectrometry, pattern, peptide, protein, proteome, scientist, spectra, tandem, FASEB list

Resource Name: Global Proteome Machine Database (GPM DB)

Resource ID: SCR_006617

Alternate IDs: r3d100010883, nif-0000-10455

Alternate URLs: <https://www.thegpm.org/GPMDB/index.html>,
