### Resource Information

**URL:** <http://sourceforge.net/projects/fiswidgets/>

**Proper Citation:** FisWidgets (RRID:SCR\_007367)

**Description:** A set of Java libraries for rapidly creating GUIs for software modules (C, C++, Fortan, PERL scripts, etc.), and graphically controlling process flow among them. This allows a GUI to be created for existing image processing and analysis routines, which provides: 1) graphic elements for setting parameters, arguments, etc. (i.e., text dialogs, file browsers, etc.); 2) links to web based documentation; 3) simple point-and-click interface for setting up a path for data flow from one module to another. The purpose of FisWidgets is to provide an integrated and user-friendly environment for using the disparate and growing array of image processing and analysis tools created by different laboratories.

**Resource Type:** data analysis software, data processing software, software application, software resource

**Resource Name:** FisWidgets

**Resource ID:** SCR\_007367

**Alternate IDs:** nif-0000-00302

**Old URLs:** <http://neurocog.lrdc.pitt.edu/fiswidgets/>

**Record Creation Time:** 20220129T080241+0000

**Record Last Update:** 20260912T195653+0000
