Proper Citation: CHB Transgenic Core Laboratory (RRID:SCR_009707)

Description: Core facility that provides the following services: Gene targeting service, Transgenics service. The Transgenic Core centralizes the production of genetically altered mice for MRRC investigators in a cost-effective and efficient manner. The Core also provides expert assistance in the additional areas required for generating genetically altered mice, including transgene and targeting construct production, and transgenic mouse colony management. Core personnel are available to train investigators in all of the techniques required for the generation of genetically modified mice.

Resource Type: access service resource, core facility, service resource

Keywords: transgenic mouse model generation, targeted homologous recombination
