Proper Citation: Penn Small Animal Imaging Facility: Ultrasound Sub-Core (RRID:SCR_010034)

Description: Core facility that provides the following services: Contrast enhanced sonography, Quantitative analysis of images, Small animal ultrasound imaging, Blood flow velocity measurement, Tissue motion measurement. The Ultrasound Sub-Core of the SAIF offers an array of research services for pre-clinical research including quantitative image analysis and consultation. Our state-of-the-art ultrasound scanners are available as a resource for conducting your research studies. This rich resource for ultrasound imaging is available at nominal hourly fees for various categories of study. Ultrasound Research Services provides services to a host of groups working on diverse projects such as the measurement of angiogenesis, vascularity, tissue elasticity, the effects of various pharmaceuticals on these measures and more. Such research encompasses a variety of clinical areas including radiology, oncology, cardiology, gynecology, and hematology, among others.

Resource Type: core facility, service resource, access service resource

Keywords: ultrasonography, image analysis, doppler velocity measurements

Resource Name: Penn Small Animal Imaging Facility: Ultrasound Sub-Core

Resource ID: SCR_010034

Alternate IDs: nlx_156505

Record Creation Time: 20220129T080256+0000

Record Last Update: 20260731T042827+0000

Ratings and Alerts

No rating or validation information has been found for Penn Small Animal Imaging Facility: Ultrasound Sub-Core.

No alerts have been found for Penn Small Animal Imaging Facility: Ultrasound Sub-Core.
