DEG - Database of Essential Genes

RRID:SCR_012929

Type: Tool

Proper Citation

DEG - Database of Essential Genes (RRID:SCR_012929)

Resource Information

URL: <http://tubic.tju.edu.cn/deg>

Proper Citation: DEG - Database of Essential Genes (RRID:SCR_012929)

Description: THIS RESOURCE IS NO LONGER IN SERVICE. Documented on August 19, 2019. It hosts records of currently available essential genes among a wide range of organisms. For prokaryotes, DEG contains essential genes in more than 10 bacteria, such as *E. coli*, *B. subtilis*, *H. pylori*, *S. pneumoniae*, *M. genitalium* and *H. influenzae*, whereas for eukaryotes, DEG contains those in yeast, humans, mice, worms, fruit flies, zebra fish and the plant *A. thaliana*. Users can Blast query sequences against DEG, and can also search for essential genes by their functions and names. Essential gene products comprise excellent targets for antibacterial drugs. Essential genes in a bacterium constitute a minimal genome, forming a set of functional modules, which play key roles in the emerging field, synthetic biology.

Abbreviations: DEG

Synonyms: Database of Essential Genes

Resource Type: data or information resource, database

Keywords: *e. coli*, essential gene, eukaryote essential gene, fruit fly, *a. thaliana*, *b. subtilis*, *h. influenzae*, *h. pylori*, human, *m. genitalium*, mice, prokaryote essential gene, *s. pneumoniae*, worm, yeast, zebra fish, FASEB list

Availability: THIS RESOURCE IS NO LONGER IN SERVICE.

Resource Name: DEG - Database of Essential Genes

Resource ID: SCR_012929

Alternate IDs: r3d100012052, nif-0000-02745

Record Creation Time: 20220129T080313+0000

Ratings and Alerts

No rating or validation information has been found for DEG - Database of Essential Genes.

No alerts have been found for DEG - Database of Essential Genes.
