## Chemical Translation Service

RRID:SCR\_014681

Type: Tool

### Proper Citation

Chemical Translation Service (RRID:SCR\_014681)

### Resource Information

**URL:** <http://cts.fiehnlab.ucdavis.edu>

**Proper Citation:** Chemical Translation Service (RRID:SCR\_014681)

**Description:** A translation service which contains a registry of publicly available chemical information such as structures, chemical names, chemical synonyms, database identifiers, molecular masses, XlogP and proton-donor/acceptor data for compound-specific, structure-based cross references. It offers single ID conversion, batch ID conversion, InChI code conversion, and other services.

**Abbreviations:** CTS

**Synonyms:** Chemical Translation Service (CTS)

**Resource Type:** data or information resource, database, service resource

**Keywords:** translation service, chemical translation, metabolomics, metabolomics tool, chemical properties, chemical structure, compound, chemical registry, cross reference

**Availability:** Available to public, A web GUI is used and a soap-based application-programming interface was implemented for automated access

**Resource Name:** Chemical Translation Service

**Resource ID:** SCR\_014681

**Record Creation Time:** 20220129T080321+0000

**Record Last Update:** 20260731T042925+0000

### Ratings and Alerts

No rating or validation information has been found for Chemical Translation Service.

No alerts have been found for Chemical Translation Service.
