Proper Citation: Chenomx NMR Suite (RRID:SCR_014682)

Description: A software suite for identifying and quantifying compounds in NMR spectra. Features include a compound profiler, tools to process data, a compound builder, spin simulator and library manager. More information can be requested, and installation instructions are available on the website.

Synonyms: Chenomx

Resource Type: software resource, software toolkit

Keywords: metabolomics, metabolomics tool, nmr, profiling, modeling, compound, nuclear magnetic resonance

Availability: Available to evaluate, Must purchase license to save data or analyses

Resource Name: Chenomx NMR Suite

Resource ID: SCR_014682

License: End User License Agreement
