Proper Citation: Virginia Commonwealth University Mid-Atlantic Twin Registry MATR Core Facility (RRID:SCR_017484)

Description: Core scientists collaborate with research teams from a variety of disciplines and institutions. MATR services include recruitment, data and sample collection, dataset curation and access, protocol development, cost estimates, grant development support, and IRB submissions. Twins and their families who are willing to consider taking part in twin-based, health-related research can participate. For twins of any age, ethnicity, and zygosity (identical or fraternal), as well as higher order multiples such as triplets, quadruplets and quintuplets. Most of twins registered in MATR are from Virginia, North Carolina, and South Carolina, but twins from all over the country and all around the world are welcome to register. MATR repository containing DNA samples provided by twins and allows to study twin data collected by studies along with their DNA.
