Resource Information

URL: <https://sydneybioX.github.io/CiteFuse/>

Proper Citation: CiteFuse (RRID:SCR_019321)

Description: Software R package consisting of suite of tools for doublet detection, modality integration, clustering, differential RNA and protein expression analysis, antibody-derived tag evaluation, ligand-receptor interaction analysis and interactive web-based visualization of CITE-seq data.

Synonyms: Cellular Indexing of Transcriptomes and Epitopes Fuse, Cellular indexing of transcriptomes and epitopes Fuse

Resource Type: data analysis software, data processing software, software application, software resource

Defining Citation: [PMID:32353146](#)

Keywords: Data pre processing, modality integration, clustering, differential RNA, ADT, expression analysis, ADT evaluation, ligand receptor interaction analysis, CITE-seq data, cellular indexing of transcriptomes and epitopes by sequencing, bio.tools

Availability: Free, Available for download, Freely available

Resource Name: CiteFuse

Resource ID: SCR_019321

Alternate IDs: biotools:citefuse

Alternate URLs: <https://bioconductor.org/packages/CiteFuse/>, <https://github.com/SydneyBioX/CiteFuse/>, <http://shiny.maths.usyd.edu.au/CiteFuse/>, <https://bio.tools/CiteFuse>

License: GPL-3

Record Creation Time: 20220129T080344+0000

Record Last Update: 20260903T235525+0000
