Proper Citation: UMAX: 2100XL Flat Bed Scanner (RRID:SCR_020868)

Description: UMAX PowerLook 2100XL is a scanner for graphics professionals who require high resolution and fast color scanning of any image in a small package. You can scan illustrations, newspapers, magazines, transparencies, color photos, and even x-rays, textiles, and negatives. The scanning area measures a full 12" by 17", despite the small footprint of just over 18" by 24" to fit on any desktop. The scan area can accommodate up to thirty-two 35mm slides when used with the transparency adapter. High 3.4Dmax captures fine details of shadow areas -- especially important when scanning transparencies. In addition, batch scanning increases productivity by scanning more than one image in a single pass.
