Proper Citation: RRID:RGD_2311072

Description: Rattus norvegicus with name FHH/EurMcwiCrI from RGD.

Species: Rattus norvegicus

Notes: An outbred stock of fawn hooded rats was introduced into Europe by Tschopp in the early 1970s. Maintained as an outbred stock until the mid-1980s, when brother x sister mating was initiated by A.P. Provoost to produce two strains designated FHH (also known as FHR) and FHL, which differ in expression of hypertension and proteinuria. The colony was transferred to Erasmus University in Rotterdam, The Netherlands, then to the Medical College of Wisconsin in the 1990s. To Charles River in 2001. [Charles River Laboratories](#)

Catalog Number: 2311072

Background: inbred

Database: Rat Genome Database (RGD)

Database Abbreviation: RGD

Availability: Unknown

Alternate IDs: 2311072

Organism Name: FHH/EurMcwiCrI

Record Creation Time: 20230509T191939+0000

Record Last Update: 20260905T135224+0000
