## pTGFP-T7-Hha10T

RRID:Addgene\_65427

Type: Plasmid

---

### Proper Citation

RRID:Addgene\_65427

---

### Plasmid Information

**URL:** <http://www.addgene.org/65427>

**Proper Citation:** RRID:Addgene\_65427

**Bacterial Resistance:** Kanamycin

**Defining Citation:** [PMID:26292071](https://pubmed.ncbi.nlm.nih.gov/26292071/)

**Vector Backbone Description:** Backbone Marker:EvroGen; Vector Backbone:pTurboGFPN; Vector Types:Mammalian Expression; Bacterial Resistance:Kanamycin

**Comments:** The pTGFP-Hha10 vector was used to generate the parent vector, i.e., pTGFP-T7-Hha10T. This parent vector can be used to construct non-replicating double-stranded plasmids that contain a site-specific DNA lesion. Note: Addgene's quality control sequencing finds a T18N amino acid residue substitution in TurboGFP. This residue change is not thought to affect plasmid function for transcriptional mutagenesis assay.

**Plasmid Name:** pTGFP-T7-Hha10T

**Record Creation Time:** 20220422T222413+0000

**Record Last Update:** 20260808T082004+0000

---

### Ratings and Alerts

No rating or validation information has been found for pTGFP-T7-Hha10T.

No alerts have been found for pTGFP-T7-Hha10T.
