pKD4

RRID:Addgene_45605

Type: Plasmid

Proper Citation

RRID:Addgene_45605

Plasmid Information

URL: <http://www.addgene.org/45605>

Proper Citation: RRID:Addgene_45605

Insert Name: FRT-kan-FRT

Bacterial Resistance: Ampicillin and Kanamycin

Defining Citation: [PMID:10829079](#)

Vector Backbone Description: Backbone Marker:M. Koob (University of Wisconsin, Madison); Vector Backbone:pANTS??; Vector Types:Bacterial Expression; Bacterial Resistance:Ampicillin and Kanamycin

Comments: This is a template plasmids for frt-flanked kan cassette. The kan cassette originally came from pCP15. pKD3 and pKD4 are identical except for the region between the FRT sites, so they create an identical scar that has stop codons in all six reading frames. As drawn in the map, this scar has an idealized ribosome binding site and start codon for downstream (rightward) gene expression.

Plasmid Name: pKD4

Record Creation Time: 20220422T222235+0000

Record Last Update: 20260829T080553+0000

Ratings and Alerts

No rating or validation information has been found for pKD4.

No alerts have been found for pKD4.

Data and Source Information

Usage and Citation Metrics

We found 28 mentions in open access literature.

Listed below are recent publications. The full list is available at [kravitz2](#) .
