BiblioSpec

RRID:SCR_004349

Type: Tool

Proper Citation

BiblioSpec (RRID:SCR_004349)

Resource Information

URL: <http://proteome.gs.washington.edu/software/bibliospec/documentation/index.html>

Proper Citation: BiblioSpec (RRID:SCR_004349)

Description: BiblioSpec enables the identification of peptides from tandem mass spectra by searching against a database of previously identified spectra. This suite of software tools is for creating and searching MS/MS peptide spectrum libraries. BiblioSpec is available free of charge for noncommercial use through an interactive web-site at http://depts.washington.edu/ventures/UW_Technology/Express_Licenses/bibliospec.php. The BiblioSpec package contains the following programs: * BlibBuild creates a library of peptide MS/MS spectra from MS2 files. * BlibFilter removes redundant spectra from a library. * BlibSearch searches a spectrum library for matches to query spectra, reporting the results in an SQT file. In addition to the primary programs, the following auxiliary programs are available: * BlibStats writes summary statistics describing a library. * BlibToMS2 writes a library in MS2 file format. * BlibUpdate adds, deletes, or annotates spectra. * BlibPpMS2 processes spectra (bins peaks, removes noise, normalizes intensity) as done in BlibSearch and prints the resulting spectra to a text file. Several reference libraries are available for download. These libraries are updated regularly and are for use under the Linux operating system. You will find libraries for * Escherichia coli * Saccharomyces cerevisiae * Caenorhabditis elegans

Resource Type: data or information resource, database, software resource

Defining Citation: [PMID:18428681](#)

Resource Name: BiblioSpec

Resource ID: SCR_004349

Alternate IDs: nlx_36841

Record Creation Time: 20220129T080224+0000

Record Last Update: 20260829T182206+0000

Ratings and Alerts

No rating or validation information has been found for BiblioSpec.

No alerts have been found for BiblioSpec.
