Proper Citation: Computational Genomics Analysis Tools (RRID:SCR_006390)

Description: THIS RESOURCE IS NO LONGER IN SERVICE. Documented on January 3, 2023. A collection of tools for the computational genomicist written in the python language to assist in the analysis of genome scale data from a range of standard file formats. The toolkit enables filtering, comparison, conversion, summarization and annotation of genomic intervals, gene sets and sequences. The tools can both be run from the Unix command line and installed into visual workflow builders, such as Galaxy. Please note that the tools are part of a larger code base also including genomics and NGS pipelines. Everyone who uses parts of the CGAT code collection is encouraged to contribute. Contributions can take many forms: bugreports, bugfixes, new scripts and pipelines, documentation, tests, etc. All contributions are welcome.

Abbreviations: CGAT

Synonyms: Computational Genomics Analysis Toolkit, CGAT - Computational Genomics Analysis Tools

Resource Type: software toolkit, software resource

Defining Citation: [PMID:24395753](#)

Keywords: computational genomics, genomics, command-line, next-generation sequencing, python, pipeline, functional enrichment, clustering, metagenomic, contig, variant, analysis, filter, compare, conversion, summarization, annotation

Availability: THIS RESOURCE IS NO LONGER IN SERVICE

Resource Name: Computational Genomics Analysis Tools

Resource ID: SCR_006390

Alternate IDs: OMICS_02209

Record Creation Time: 20220129T080235+0000

Record Last Update: 20260729T044135+0000

Ratings and Alerts

No rating or validation information has been found for Computational Genomics Analysis Tools.

No alerts have been found for Computational Genomics Analysis Tools.
