## OrChem

RRID:SCR\_008865

Type: Tool

### Proper Citation

OrChem (RRID:SCR\_008865)

### Resource Information

**URL:** <http://orchem.sourceforge.net>

**Proper Citation:** OrChem (RRID:SCR\_008865)

**Description:** OrChem is an extension for the Oracle 11G database that adds registration and indexing of chemical structures to support fast substructure and similarity searching. The cheminformatics functionality is provided by the Chemistry Development Kit. OrChem provides similarity searching with response times in the order of seconds for databases with millions of compounds, depending on a given similarity cut-off. For substructure searching, it can make use of multiple processor cores on today's powerful database servers to provide fast response times in equally large data sets. OrChem is an Oracle chemistry plug-in using the Chemistry Development Kit (CDK). The CDK is an open source Java library for Chemoinformatics and Bioinformatics. OrChem is maintained by the chemoinformatics and metabolism team of the European Bioinformatics Institute. Oracle Data cartridges extend the capabilities of the Oracle server. For chemistry various commercial cartridges exist that facilitate searching and analyzing chemical data. OrChem also provides functionality like this, but is not a cartridge. It doesn't need Oracle's extensibility architecture because its Java components run as Java stored procedures inside the Oracle standard JVM (Aurora). OrChem is suitable for Oracle 11G and onwards. Starting with Oracle 11g release 1 (11.1) there is a just-in-time(JIT) compiler for Oracle JVM environment. A JIT compiler for Oracle JVM enables much faster execution because it manages the invalidation, recompilation, and storage of code without an external mechanism. This new Oracle feature makes Java classes perform better than before.

**Abbreviations:** OrChem

**Resource Type:** software resource, source code

**Defining Citation:** [PMID:20298521](#)

**Keywords:** oracle, chemistry, cdk, similarity search, chemical structure, cheminformatics, bioinformatics, plugin

**Availability:** GNU Lesser General Public License

**Resource Name:** OrChem

**Resource ID:** SCR\_008865

**Alternate IDs:** nlx\_149252

**Record Creation Time:** 20220129T080249+0000

**Record Last Update:** 20260731T042805+0000
