Proper Citation: Banner Sun Health Research Institute (RRID:SCR_011110)

Description: Research institute for basic and translational research, clinical care, prevention and education in age-related conditions such as Alzheimer's and Parkinson's diseases, arthritis and cancer. Founded as a private, nonprofit biomedical research center, they now have nearly 100 international scientists and research staff. Their research programs have had significant impact on how physicians diagnose and treat diseases such as Alzheimer's, Parkinson's and arthritis. Sun Health is also internationally recognized for research on inflammation damage to brain tissue and how that affects Alzheimer's disease. They are one of just 31 national Alzheimer's Disease Core Centers in the nation. The Institute maintains collaborations with nationally-recognized institutions such as Johns Hopkins, Boston University and the University of Washington. In 2007, the institute opened a new research facility that allowed them to expand into areas such as orthopedics and fibromyalgia.
