Proper Citation: DISEASES (RRID:SCR_015664)

Description: Database that integrates evidence on disease-gene associations from automatic text mining, manually curated literature, cancer mutation data, and genome-wide association studies. It also assigns confidence scores that facilitate comparison of the different types and sources of evidence.

Resource Type: data or information resource, database

Defining Citation: [PMID:25484339](#)

Keywords: disease, gene, disease-gene association, text-mining, , bio.tools, FASEB list
