Proper Citation: dplyr (RRID:SCR_016708)

Description: Software tool for working with data frame like objects, both in memory and out of memory. It is a grammar of data manipulation, providing a consistent set of verbs that help you solve the most common data manipulation challenges: mutate, select, filter, summarise, arrange.

Resource Type: data analysis software, data processing software, software application, software resource

Keywords: data, frame, object, in and of memory, grammar, manipulation, set, verb, mutate, select, filter, summarise, arrange

Availability: Open Source, Available for download

Resource Name: dplyr

Resource ID: SCR_016708
